**Content: 59**

You needed to do more research in to voting systems and potentially define the actual problem.

**Code: 72**

Code is basic and could have been improved through the use of objects (I approximate that it could be done generically in 20 lines).

**Delivery: 62**

You all seemed to avoid eye contact at all costs this is something that doesn't help you contact and relate to your audience.

**Visual Aids: 65**

Basic use of aids.

**Creativity: 72**

Interesting idea.

**General comments**

Ok piece of work.
