

Immediate Feedback on Project Presentation

Company name:

NJ³

Content: 70

Your content was extensively thought out. Perhaps more could have been done with regards to your business model.

Code: 90

Excellent thorough use of code. Particularly nice to see you using code to analyse the data from your questionnaire.

Delivery: 85

Excellent delivery. You all came across very well and obviously prepared well. Well done on dressing smart: it's important.

Visual Aids: 70

Good use of visual aids.

Creativity: 70

Whilst the 'for students by students' is a great idea it is also rather safe. I don't think that means it's bad but at the same time I cannot offer you more marks for creativity.

General comments

Really great job guys. I hope you guys keep going and would love to point at your site from mine. If I can help in any way let me know.

Overall Mark: 77/100
