

Immediate Feedback on Project Direction

(This is some feedback to make sure your project is on the right track: you will be given detailed a mark and detailed feedback asap.)

Company name:

JJSL.

Technical aspects:

Use of Django is appropriate. Do not leave it too late to make sure you are comfortable with the software.

Initial comments about write up:

Well written.

Initial comments about strategy:

Not entirely sure there will be a market for it (student connect via facebook no? - I am old boring and don't know but your report still did not convince me.)

Where how will you get your website content?

General comments

I look forward to seeing what you will come up with.

Be sure to get going on Django sooner rather than later.
