Company name:

Evolve

The game aspect is great for this. You could have considered certain things a bit better (gambling market or not?).

Code: 68

Nice use of code to solve a hard problem. A shame that you did not solve the dealer problem.

Delivery: 74

Very well delivered with a great introduction.

On a slight personal feedback note: Lydia you spoke very quietly, try to assert your presence a bit more during presentations.

Visual Aids: 64

Some of your images were fuzzy.

Creativity: 62

Neat idea.

General comments

Nice idea although some things could have been done in more detail. Good job.
