(This is some feedback to make sure your project is on the right track: you will be given detailed a mark and detailed feedback asap.)

Company name:

Mias.

Technical aspects:

No technical content presented but you seem to be on the right track. Note that odds and betting is an extremely difficult mathematical process, you would need to learn quite a lot of complicated mathematics for this but for the purposes of this project I look forward to seeing what you come up with!

(Awesome about open sourcing the software)
