

# Immediate Feedback on Project Direction

(This is some feedback to make sure your project is on the right track: you will be given detailed a mark and detailed feedback asap.)

## **Company name:**

Alpha1

## **Technical aspects:**

Sounds like you plan on writing 1 line of Sage code but the app aspect is more complicated.

We have talked already about kivy which is what I believe you should look at.

## **Initial comments about write up:**

Poorly written with lots of repetition (you told me that you were choosing to build an app 12 times).

## **Initial comments about strategy:**

Not convinced that this is a useful product and that it will be popular (as a lecturer I would never recommend it).

## **General comments**

Re strategy you need to do some work to justify that there is a market for your product. I am not convinced.
