

Immediate Feedback on Project Direction

(This is some feedback to make sure your project is on the right track: you will be given detailed a mark and detailed feedback asap.)

Company name:

Alpha2

Technical aspects:

The use of Django is great from a coding point of view. I believe you have the technical ability within your team to cope with this very well. If you plan to host this on a live server and need a hand please don't hesitate to come and ask.

Take a look at Bradley-Terry models.

Initial comments about write up:

The write up contained various grammatical errors and also at times offered opinions as facts.

Initial comments about strategy:

The strategy seems well thought out although the introduction is poor.

General comments

Looks like a fun product: I look forward to seeing it.
